## IANR 3006 Mileage Tariff

### **Item 15 Reference to Tariffs, Items, Notes, Rules, Etc.**

Where reference is made in this tariff to tariffs, items, notes, rules, such references are continuous and include supplements to and successive issues of such tariffs, and reissues of such items, notes, rules.

---

### **Item 25 Method of Canceling Item**

As this tariff is supplemented, numbered items with lettered suffixes cancel correspondingly numbered items in the original tariff or in a prior supplement. Letter suffixes will be used in alphabetical sequence starting with A. Example: Item 10-B cancels Item 10-A in a prior supplement which, in turn, canceled Item 10.

---

### **Item 50 – Method of Denoting Reissued matter in Supplements**

Matter brought forward without change from one supplement to another will be designated as “Reissued” by a reference mark in the form of the number being underlined. The number being that of the supplement in which the reissued matter first appeared in its currently effective form. To determine the original effective date consult the supplement in which the reissued matter first became effective.

---

### **Item 55 – Application of Distances**

The distances in this Tariff are in miles and hundredths of miles and are to be used as the official distances of the IANR between the stations named, unless otherwise specifically provided in other IANR Tariffs, Quotes or Contracts. Fractions of miles resulting from the application of actual mileage will be dropped down to the nearest mile if the tenth of mile is less than five (5) and will be increased to the next mile if the tenth of mile is five (5) or more. Ex: 59.19 will be calculated as 59 miles, 116.54 will be calculated as 117 miles and 35.80 will be calculated as 36 miles.
